

ZODIAC 1983

TELSTAR REGIONAL HIGH SCHOOL

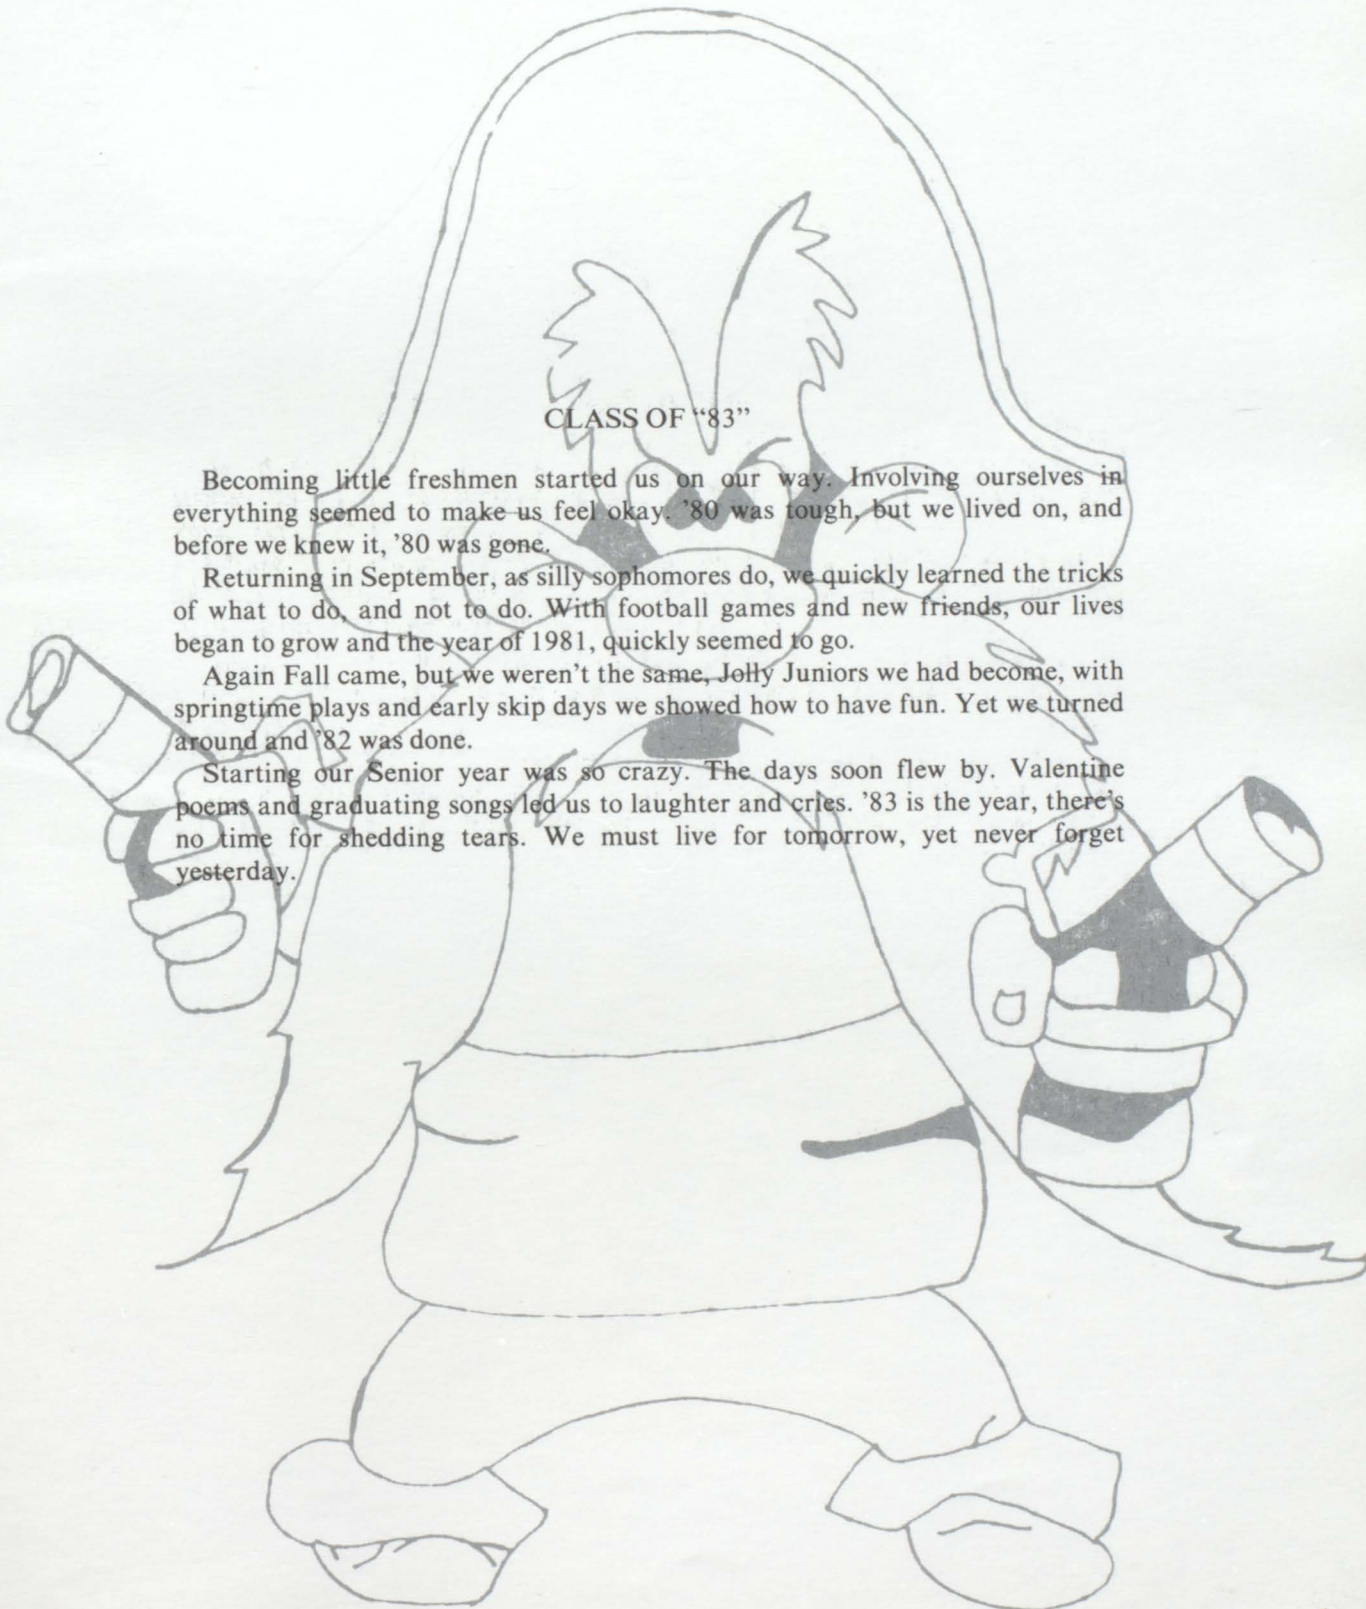

CLASS OF '83

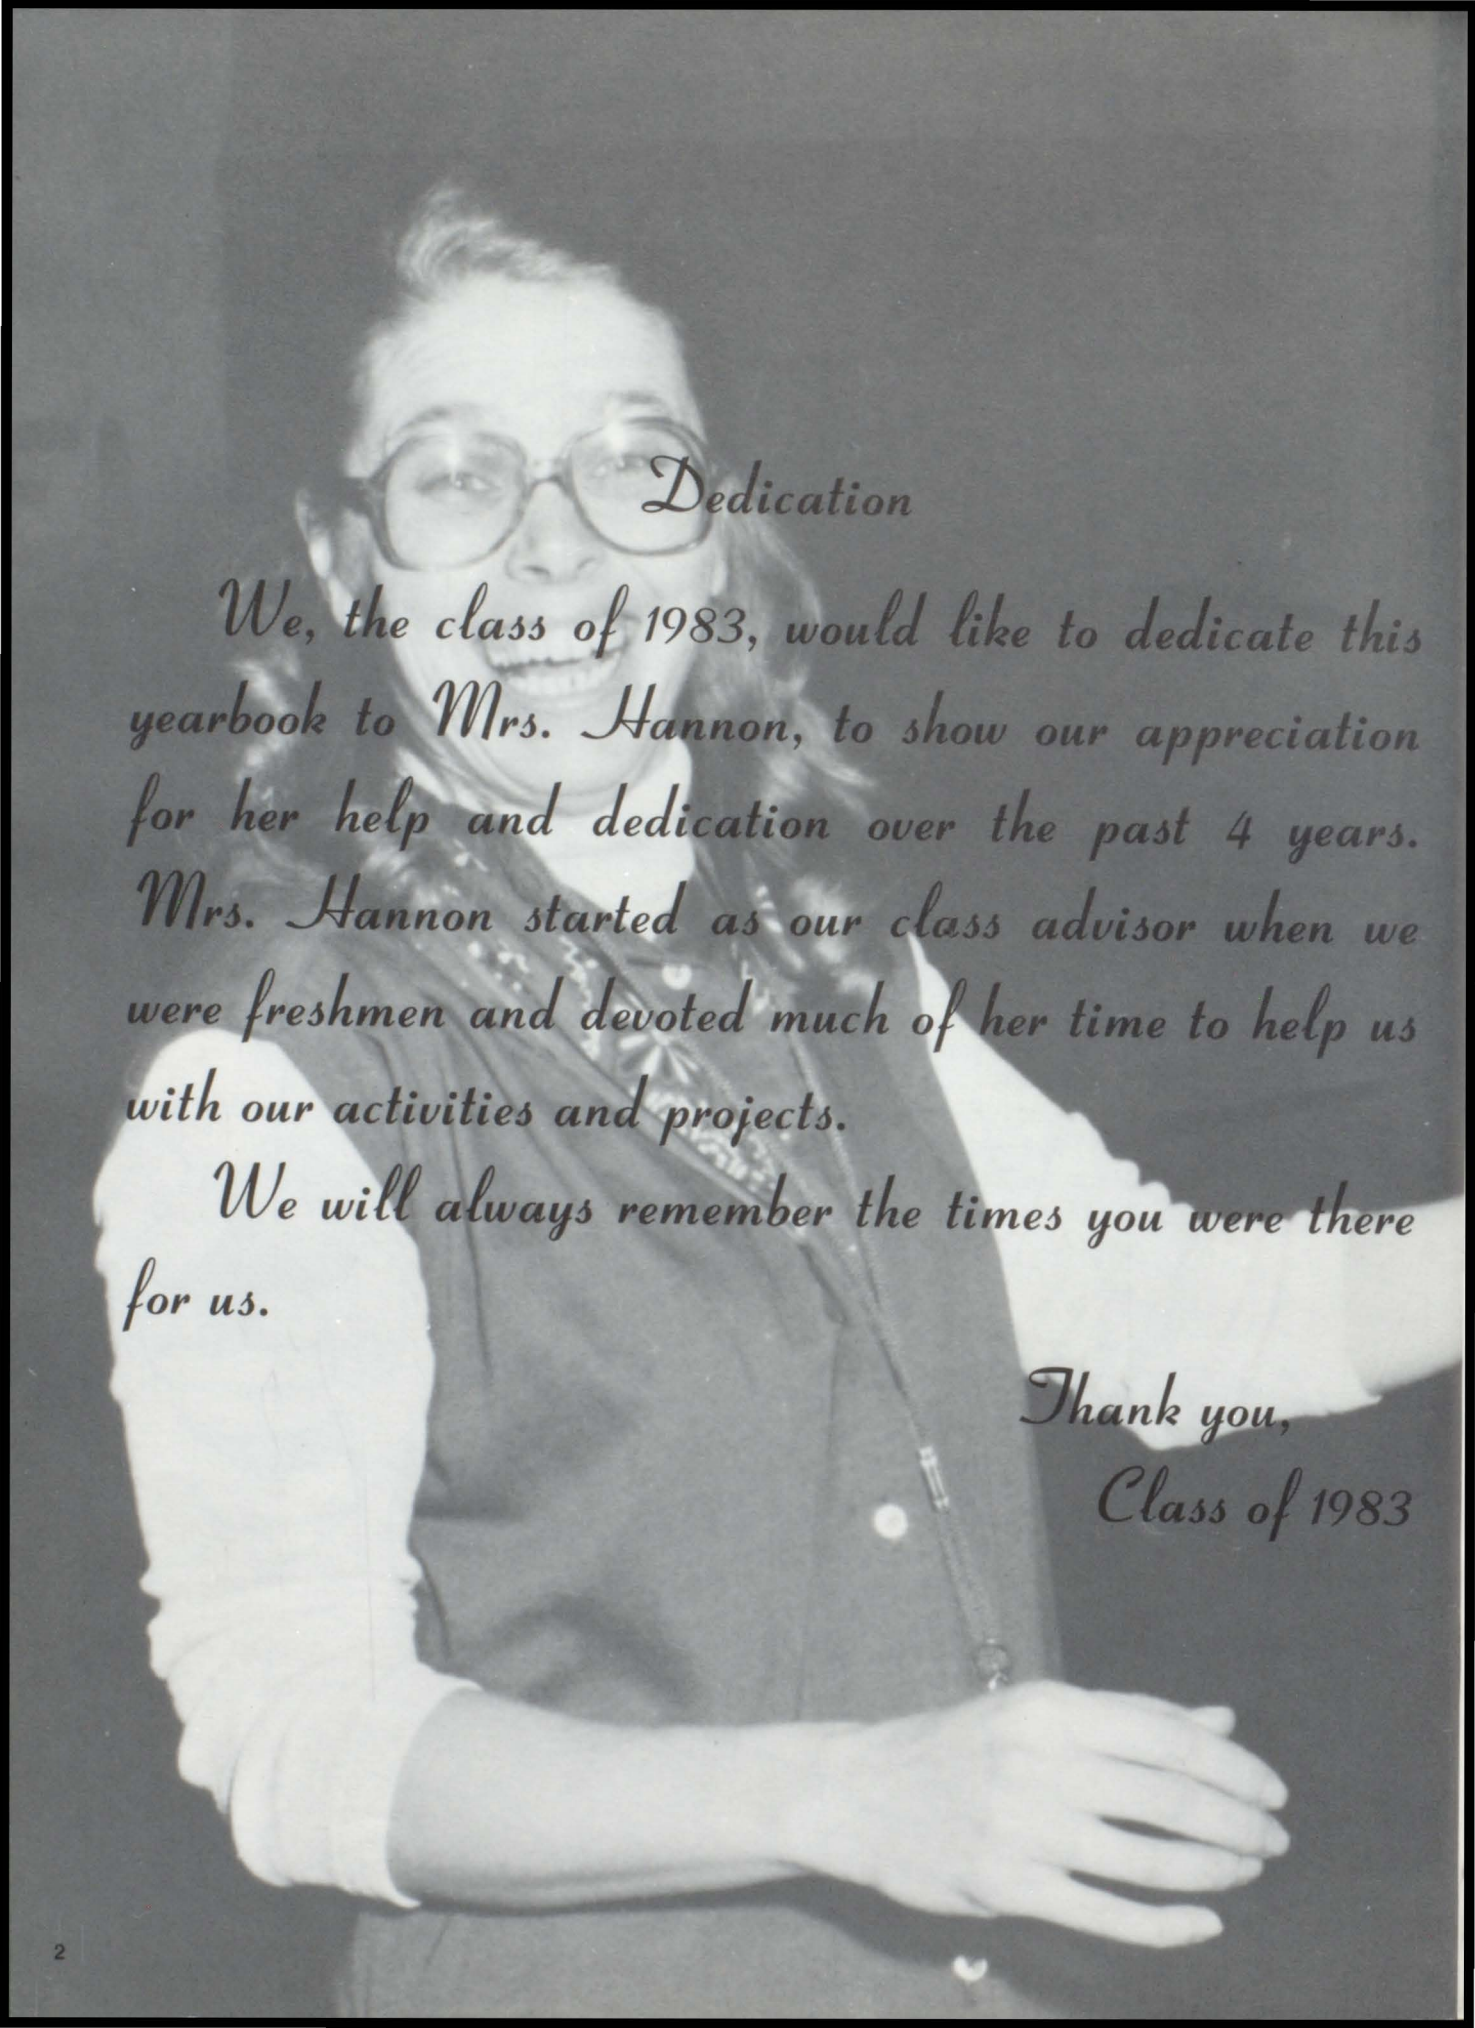

Becoming little freshmen started us on our way. Involving ourselves in everything seemed to make us feel okay. '80 was tough, but we lived on, and before we knew it, '80 was gone.

Returning in September, as silly sophomores do, we quickly learned the tricks of what to do, and not to do. With football games and new friends, our lives began to grow and the year of 1981, quickly seemed to go.

Again Fall came, but we weren't the same. Jolly Juniors we had become, with springtime plays and early skip days we showed how to have fun. Yet we turned around and '82 was done.

Starting our Senior year was so crazy. The days soon flew by. Valentine poems and graduating songs led us to laughter and cries. '83 is the year, there's no time for shedding tears. We must live for tomorrow, yet never forget yesterday.

Dedication

We, the class of 1983, would like to dedicate this yearbook to Mrs. Hannon, to show our appreciation for her help and dedication over the past 4 years. Mrs. Hannon started as our class advisor when we were freshmen and devoted much of her time to help us with our activities and projects.

We will always remember the times you were there for us.

*Thank you,
Class of 1983*

What Is A Friend?

Once in a while we meet someone

Who makes us feel so good

Who seems to understand us

In a way few people could

Someone who's truly glad for us

When things are going well

Who's always there to listen

When we've something new to tell

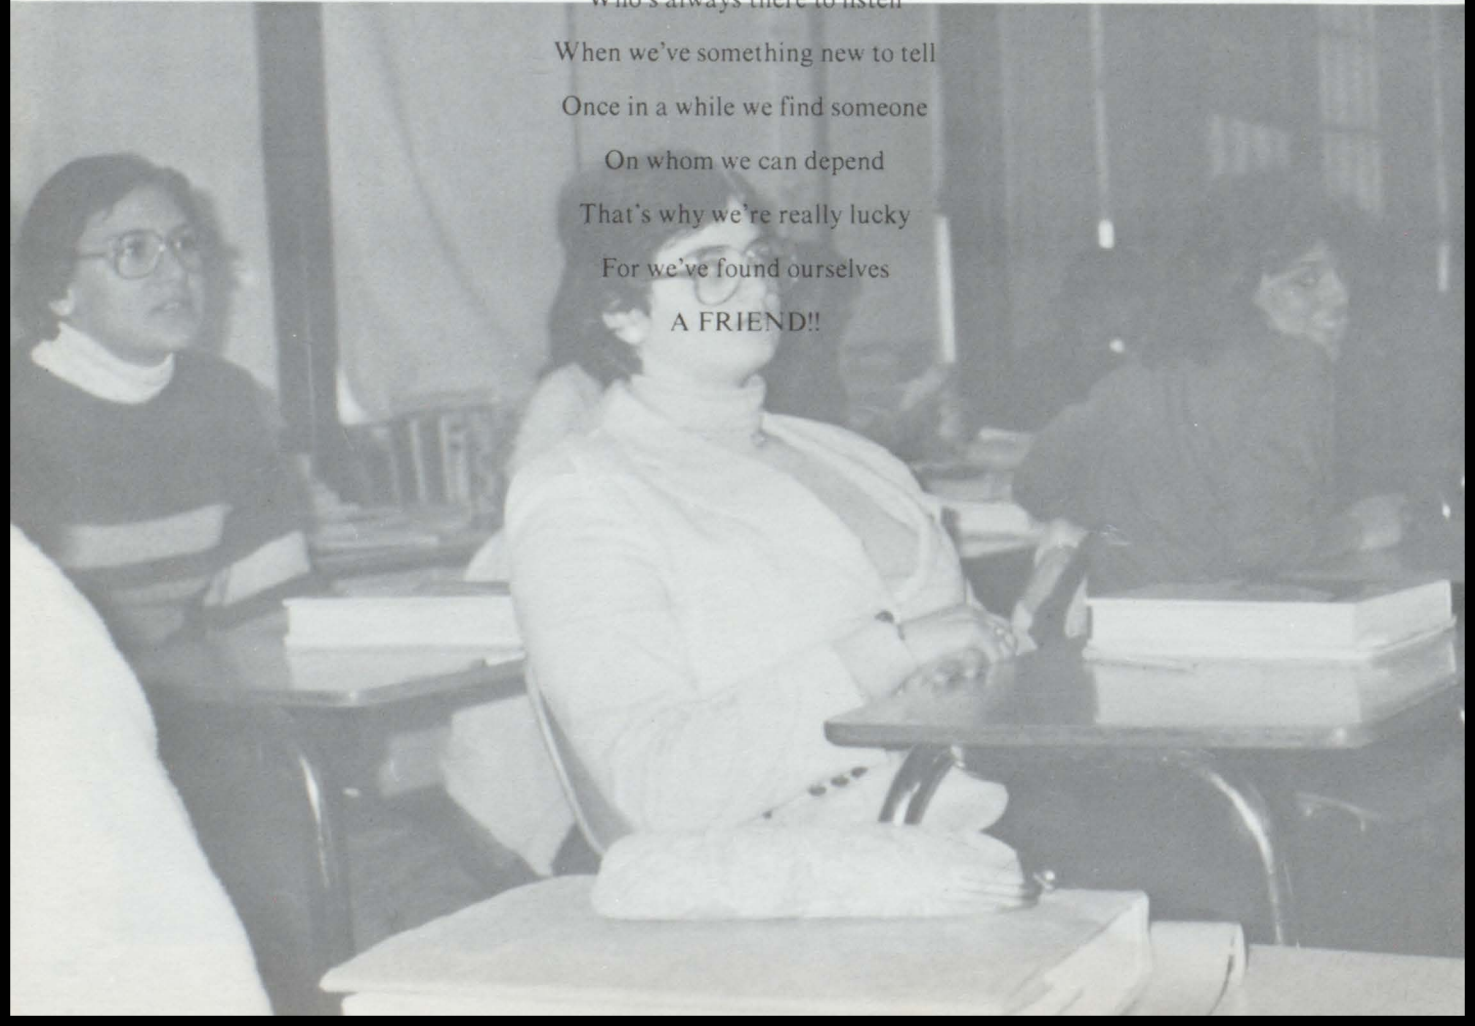

Once in a while we find someone

On whom we can depend

That's why we're really lucky

For we've found ourselves

A FRIEND!!

Mrs.
Gibbs!!!

Mrs. Madeleine Gibbs has been a very important part of Telstar ever since the school began. Many of her contributions to the learning process have been made behind the scenes. These contributions are no less real because they were made without fanfare.

A library is the center of any institution of learning. Without a good library, a school is very limited in its scope. Because Mrs. Gibbs has devoted herself to creating a fine library, she can take pride in knowing that she has been vitally important in the creation of a fine school.

The Love of the Game

There is too much of sighing, and weaving
of pitiful tales of despair.
There is too much of wailing and grieving
and too much of railing at care.
There is far too much glorification
of money and pleasure and fame,
But I sing the joy of my station
and I sing the love of my game.

There is too much of tremble-lip telling
of hurts that have come with the fight.
There is too much pitiful dwelling
on plans that have failed to go right.
There is too much of envious pining
for luxuries others may claim.
Too much thought of winning and dining,
but I sing the love of my game.

There is too much grim magnifying
the troubles that come with the day.
There is too much indifferent trying
to travel a care-beset way.
Too much do men think of gold getting
too much have they underwrit shame,
Which accounts for the frowning and fretting,
but I sing the joy of my game.

Let's get back to the work we are doing;
let us reckon its joy and its pain;
Let us pause while our tasks we're reviewing,
to sum up the cost of each gain.
Let us give up our whining and wailing
because of the bruises that maim,
And battle the chances of failing
as being a part of the game.

Let us care more for serving than winning,
let us look at our woes as they are;
It is time now that we were beginning
to be less afraid of a scar.
Let us care in our glorification
of money and pleasure and fame
And Find, what so ever be our station,
our joy in the love of the game.

"Congratulations to you for your outstanding achievement. National Honor Society is only the first of many accolades that you will receive for your commitment to excellence in studies, service, leadership and character. I hope that you look at this award not as a closure but as the start of a future that will result in a long series of successes. Please bear in mind the words of Cardinal Suenans —

'Happy are those who dream dreams and are willing to pay the price to make them come true'.

You have dreams for your future — your willingness to make a commitment to studies — even when it has been more popular to be less committed — makes you strong and self-disciplined — two attributes that will serve you well in your adult life."

— Warren E. Bouchard

The Pits — You Grow — We Grow — We All Grow

A black and white photograph of a fishing net, likely a cast net, draped over a wooden structure. In the foreground, a bucket filled with small, white, round objects, possibly whitebait or eggs, sits on a wooden surface. The net's mesh is prominent, creating a grid-like pattern across the background.
